DESAPS

The **Diplôme universitaire 'DESAPS'** identifies actions taken by the Jean Monnet Chair in European health and health products law, and is one of the courses offered by the European School of Law (ESL), part of the European Centre of Excellence at Capitole (C2EC).

This course is aimed not only at law, medicine and pharmacy students, but also healthcare professionals and law professionals wishing to specialise in health fields, understood in their European dimension.

DESAPS aims to provide the enrolled students with additional skills and specific legal expertise.

Teaching combines the contributions of university staff (lecturers and researchers) specialising in European law, health law and pharmaceutical law with those of experienced professionals.
